ANNEXURE-1

Revised distribution of Overheads and Clarification regarding Board approved Overheads Policy for Sponsored R&D projects, Consulting Projects, and Other Activities

The Board of Governors, in its 53rd meeting held on 08.06.2021, approved the Overhead Policy for Sponsored R&D projects, Consulting projects and other activities. Thereafter, an Officer Order No. 16/2021 (Ref No. IIIT-Delhi/Office Order/-321 Dated 08.07.21) was released, some aspects of which needed clarifications. The clarification supersedes the relevant part in Order No. 16/2021 and any other office order related to Overheads before or after this Office Order (Order No. 16/2021) on the relevant aspect.

The following was approved in the 64th meeting of the Board of Governors held on March 27, 2024:

Overhead rules for SRPs

1. The institute expects faculty to account for 20% overhead by default. However, it is understood that different funding agencies may have their own rules regarding Overheads and approve a project if and only if the institute agrees to the conditions. Therefore, it is proposed that all the consultation and discussions related to overhead, including how the overhead will be calculated and how much, will be done at the time of submission of the project. The discussion will involve consulting the rules of the funding agency and rules of IIITD. The rules of the funding agency will supersede IIITD in case of differences, e.g., if a funding agency only allows 10% overhead and does not allow overhead on Equipment then that will be followed.
2. Once the overhead amount is agreed at the time of the submission of the proposal, it will be honored by the IRD and Finance section. On approval of the project, no further changes by IRD or Finance or any other section will be made to the sanctioned budget. That is only the sanctioned overhead amount will be charged by the IRD section. No field in the overhead, including the honorarium or salary, if any, received in the project, will be treated different than any other head. The sanctioned budget will be followed and implemented.
3. PI and co-PIs will also declare the distribution of overhead, if the project is approved, contributed to their PDAs at the time of the submission.

Overhead rules for Consultancies or any other non-SRP project

1. The institute will charge a flat 20% overhead amount on the total money received. In case the company or the funding body does not agree to provide 20% overall overhead, the salary component of the PI, if any, will be charged 20% and rest will be decided in consultation with the company of the funding body. Just like SRPs, such an arrangement must be agreed before submission of the proposal or before the start of the activities.
2. For any financial gain activities, E.g., teaching a NPTEL course or serving in a committee, a flat 20% overhead amount will be charged on the salary component.
3. Ideally, all the money should be routed through IIITD account, however, if the PI receives the money directly in their bank account, then it is their responsibility to inform the IRD section and pay the 20% overhead at the earliest.

Overhead distribution: The new distribution, approved by the Board of Governors, in its 64th meeting, to encourage faculty members to submit more grant proposals. The new distribution is as given below:

Sr. No.	Existing Rule	Proposed
a.	40 % IRD PDA	50% IRD PDA of the PI and co-PIs (the distribution among the PIs will be decided at the time of submission)
b.	20% IRD Division	20% IRD Division
c	20% Dept/Centre	30% Dept/Centre/Institute – the PI will give the division.
d.	20% Institute	

4. No proposals should be submitted without engagement of IRD office.
