IIIT-D/Office Orders/2015/16089

March 23, 2015

CIRCULAR NO:8/2015

The Board in its 27th meeting held on 26th Aug 2014 has approved following guidelines and process for use of Initiation Grant:

- This grant is only for purchase of equipment and related consumables/software etc. for setting up a lab or research facility. If the equipment/software is available in the Institute for use by the faculty member, it should not be purchased
- A faculty availing Initiation Grant must forward short research proposal in the first year of joining the Institute to Dean (IRD), along with the proposed equipment purchase and its justification (including how current Institute resources are insufficient for the purpose.) It is expected that this initial and short research proposal will later be expanded or will lead to submitting a larger research proposal to sponsoring agencies, and plans for doing so should also be mentioned in the proposal. The proposal will be evaluated by an Internal Committee. As the intent of this support is to get the research started, the proposal for the initiation grant should be submitted within two years of joining. (It is expected that within two years the faculty member is prepared for getting grants from research agencies)
- The Grant may be utilized in 2 years with all purchases being completed in 1 year of the approval
- Normally the support will be limited to Rs 5 Lacs. Grant in excess of Rs.5 Lakh can also be sanctioned with the approval of Director on the recommendation of Dean (IRD)
- Up to 15% of this may be granted for unspecified small equipment/software for supporting research with a request but without a proposal.
- The assets purchased out of Initiation Grant, being assets of the Institute, will be subject to disposal as per Policy of the Institute.
- Two or more faculty members can join to create bigger research facility.

The Order shall become effective from 26.08.2014.

This issued with the approval of the competent authority. For limits please refer to:
